(54) Title: ADJUSTABLE POST SUPPORT

14

(57) Abstract: An adjustable post support (10) for use in supporting a post vertically above the ground. The support may include a lower spike portion (12) and an upper bracket portion (14). The lower spike portion may include an upper end. The bracket portion may include a curved dome (22) and an upstanding sleeve (32) extending upwardly therefrom. The curved dome may nest with the upper end of the spike to provide a ball and socket type connection between the lower spike portion and the upper bracket portion. A fastening device (52, 54) may be used for tightening the upper bracket and lower spike portion together and a support table (60) may be located inside the sleeve.
